OBJECTIVE

I'm a final year Computer Science student at Daffodil International University with a deep passion for technology and problem-solving. I enjoy building full-stack applications, exploring the inner workings of backend systems, and sharpening my skills through competitive programming. I love the process of turning ideas into functional, user-friendly software. I'm always learning, always building, and looking for opportunities where I can grow, collaborate, and make meaningful contributions to innovative teams.

SKILLS

- Frontend** : React, Typescript, Javascript, HTML, TailwindCSS, Redux Toolkit, Bootstrap, C++, C
- Backend** : Node Js, Express Js, Mongoose, Prisma
- Database** : MongoDB, PostgreSQL
- Tools** : Linux, Vercel, VS Code, Git, Postman, GitHub
- Soft Skills** : Quick learner, Active listener, Teamwork, Critical Analysis

PROBLEM SOLVING

- Codeforces** : [Profile](#) - Total Solved - 530 - Rating: 997
- Codechef** : [Profile](#) - Total Solved - 80 - Rating: 1421 - 2 Star Coder
- Leetcode** : [Profile](#) - Total Solved - 92
- HackerRank** : [Profile](#) - Total Solved - 43 - 5 Star in C++
- Beecrowd** : [Profile](#) - Total Solved - 185

**Over all 950+ problems solved in various judges and regularly participating in Programming Contests.*

PROJECTS

- N-Streaming (Video Streaming) | [GitHub](#) | [Live Demo](#)** June 2025 – July 2025
 - High-performance video playback with fullscreen mode, picture-in-picture, and adaptive HLS streaming.
 - Role-based access with secure authentication, password encryption and dashboards.
 - Command-center admin tools for streamlined moderation and insightful, real-time analytics.

Technologies : React, TypeScript, TailwindCSS, ShadcnUI, ReduxToolkit, Node.js, Express.js, Mongoose
- Lost & Found Management System (Community Service) | [GitHub](#) | [Live Demo](#)** Nov 2024 – Dec 2024
 - Built a full-stack platform to streamline the reporting, tracking, and claiming of lost items, enhancing community engagement and recovery rates.
 - Implemented real-time search, advanced filtering, and a claim processing system for efficient item matching and recovery.
 - Developed role-based access control for users and admins, with secure JWT authentication and a robust admin dashboard for user and content moderation.

Technologies : React, TypeScript, TailwindCSS, Flowbite, ReduxToolkit, Node.js, Express.js, Prisma, PostgreSQL
- Flurry (Task Management) | [GitHub](#) | [Live Demo](#)** May 2025 – June 2025
 - Smart task organization with drag-and-drop mini-tasks, status tracking, and customization priorities.
 - Seamless collaboration through task sharing, real-time updates, and role-based user management.
 - Rich media support with image uploads for mini-tasks, full previews, and optimized cloud storage via Cloudinary.

Technologies : React, TypeScript, TailwindCSS, ReduxToolkit, Framer Motion, Ant Design, DND Kit, Node.js, Express.js, MongoDB, Mongoose

EDUCATION

Daffodil International University - Dhaka, Bangladesh Jan 2022 - Dec 2025
B.Sc in Computer Science and Engineering | CGPA : 3.67

CERTIFICATES AND ACHEIVEMENTS

- Complete Web Development Course With Jhankar Mahbub, Programming Hero 2023
- Next Level Web Development, Programming Hero 2024
- CSE Fundamentals with Phitron, Programming Hero 2025

LANGUAGE

- Bengali** (Native) • **English** (Professional Working Proficiency)
